16/02/20 23 21:03:58	teammol	<p>Namaste sir!</p> <p>I've been following Unacademy Articulate Magazine for CA and after you've taken up the editing, it has become a bliss. Your design has made completing CA a breeze. I wish to ask as well as request you, can there be a Prelims focused Compilation for Prelims 2023 (something along the lines of PT365)? Though there are such magazines of other institutes, your style of presentation, selection, and assorting of CA is better. So can something be done about this?</p>	<p>due to paucity of time, unable to do annual compilation this time.</p>

It basically involves changing of certain keywords and going to elimination method. Once you get a hang of it becomes very fast to tick or skip the answers.

- Those getting poorer scores are because
 - a) Not revising properly → Then solution is obvious =you have to revise more
 - b) Overthinking / Birbal ki Khichdi/engaging in hairsplittery/lawyer-LLB type mentality/ thinking outside the photo frame.
 - c) Not reading the words carefully
 - d) Silly mistakes like Incorrect statement is asked but they are taking the correct statement
 - e) Mind is stuck elsewhere in WhatsApp Telegram Netflix , fight with siblings/parents, love affairs & breakups. so person is reading the handout / MCQ but he/she's not absorbing it properly.
- I am sure you will do well. Just focus on the lecture, revise the handouts and give the weekly Tests in regular fashion and rectify mistakes.
- When the first four pillars are over you will automatically see the big picture how

			everything fits together in the whole syllabus.

			<p>The comprehensive course (=Prelims and Mains) is being broken into three parts</p> <p>1) Feb to May: live economy for prelims https://unacademy.com/course/mrunals-economy-course-for-upsc-prelims-2023-754/6ZPQTB6O</p> <p>2) May: live microeconomics for Prelims https://unacademy.com/course/mrunals-microeconomics-for-upsc-prelims-2023-raftaar-fasttrack-edition/XR7DPX8N</p> <p>3) June onwards: Mains Economy</p> <p>Reasons for breaking it to three parts</p> <ol style="list-style-type: none"> 1. Those who are unable to purchase more than three months subscription due to shortage of money and want to deal only with prelims. 2. Those who want to finish prelims centric material before 2023's Prelim Exam can sit in it.
16/02/20 23 22:56:14	Bittu	This course is comprehensive.??... And sir please continue the same speed and don't change it with time	

3. Comprehensive prelims+mains= means combined handout becomes more than 1200 pages and lecture goes for more than 120 hrs. and then Babu Shona Janata and rival institutes are doing a lot of negative publicity against ke “Mrunal’s handout is very lengthy. Lectures are very lengthy. very difficult to revise etc etc”. Then, Novice public not understanding and appreciating the comprehensiveness of it, and this is affecting the sales. So I have broken it out into three parts to make handout size smaller. Whoever is serious enough will sit through three parts.

Having said that, if someone is very keen/hellbent for Prelims+Mains combined then simple solution

step1: watch (recorded) PCB7:
prelim + mains course:

			mains course will only deal with mains. and it will be assumed while teaching that course that Student is already familiar with the concepts from prelims exam. For example, relationship between monetary policy and inflation.
			Mains course will not be a 'revision/refresher course for prelims'. so ideally first complete prelims course then attend mains course. PCB9-RAFTAAR Batch targeting Prelims-2023: https://unacademy.com/course/mrunals-economy-course-for-upsc-prelims-2023-754/6ZPQTB6O

Hope my question isn't repetitive, I have tried going over this doubt myself sir, but was not successful, hence the doubt submission, apologies for taking up your time on trivial issues. so, my question being, since I have taken the unacademy subscription of 3 months to attend your batch on economics for prelims 2023 from February. my subscription will end on may third week. you had mentioned in the class that if we want to prepare for mains answer writing and all that from the previously completed course on prelims and mains October session of post corona batch. now, since the videos that are showcased under that batch are very similar to the ones we are about to learn in the February batch, so how do i differentiate between the prelims videos and the mains videos? and if so, can you please specify which videos to watch specifically for mains preparation sir so that i don't go over the same lectures over in those batches and am able to specifically learn the mains material alone. thanks in advance sir. have a great day.</p>	in that case three things live economy for prelims https://unacademy.com/course/mrunals-economics-course-for-upsc-prelims-2023-754/6ZPQTB6O live microeconomics https://unacademy.com/course/mrunals-microeconomics-for-upsc-prelims-2023-raftaar-fasttrack-edition/XR7DPX8N recorded Mains QEP-2022 from last year https://unacademy.com/course/mains-economy-revision-quality-improvement-program-qep/H6N2TJ6H

		<p>Hello Sir! 1. I'm not sure about my optional since I'm from science background (B.Sc Non Med, M.Sc Chem) I have appeared for pre once before this but without any preparation or much knowledge about this exam so kindly guide me. Moreover, i am pursuing B.Ed(final) regular cum non attending these days, sir I have qualified htet and most probably I'm hoping that I'll clear this ctet too (as the result will be out within few days)frankly speaking I didn't do much of it or to have a routine study or coaching stuff for these exams but managed to qualify these ... 2. I'm 24 already so should I look out for the vacancy/job and target 2024 or be strictly 2023/24 aspirant because I started with the AARAMBH BATCH (29TH JAN). Even though I took the subscription last year but only for 2-3 months couldn't continue it..so sir help me with this dilemma. Thank You!</p>

		<p>q1) Hi sir, sir am your old batch student , and gave prelims last year , in which i failed to perform well , I had Doubt in this question ,but before stating the doubt , one small request , like when i was preparing for 2022 prelims you came with one series of video of prelims 2021 question of subjectwise doing the real time analysis , and not the random youtuber one stating whether it was doable or not , skip or not and how to eliminate , so please do that once , as upsc used its right of making paper unpredictable and used new patern of only one pair and so on , so how to deal with it .</p> <p>Second the questions like ek tha tiger of all the places in news because of negative news so how to handle , as the trend was that IR was asked less previously but in 2022 7 questions were from IR , That too which was nit directly linking india example quad etc.</p> <p>q2)</p> <p>Coming to my doubt</p> <p>With reference to the Indian economy, consider the following statements:</p> <ol style="list-style-type: none"> 1. An increase in Nominal Effective Exchange Rate (NEER) indicates the appreciation of rupee. 2. An increase in the Real Effective Exchange Rate (REER) indicates an improvement in trade competitiveness. 3. An increasing trend in domestic inflation relative to inflation in other countries is likely to cause an increasing divergence between NEER and REER. <p>q3)</p>

		<p>sir My subscription ended in the month of oct , i just renewed it for env course revision and this batch , but being a working professional I am not getting Time to do it live so asking this pillar 3 question in very begininng Sorry for that ...please if possible answer this ..</p> <p>Going by the analysis style taught by you in exam statement 3 will be correct as Reer means you are considering inflation .But this REER and NEER concept was confusing as REEr is what ?1 rs = how many dollar or 1 dollar = how many rs . ..because if it is 1 dollar is equal to how many rs then increase of it is good for export , but if it is 1 rs= how many dollar than statement 1 is correct . and next doubt was that why by term " improvement in trade competitiveness " we mean improvement in export and not import , because one out of two will always be in advantage. I have watched the analysis of top coaching tutors and they were stating some formula and all , but i want its explaination in your style . I know Sir that this is not correct pillar , but please help as currently the workload is also high and I cant promise that i will be able to attend the pillar 3 live or not . (will ask few more doubts in coming 2 -3 weeks sir , sorry in advance , and thankyou sir for all your hard effort , take care sir , you mean a lot for all upsc aspirants)</p>

“RAFTAAR” TAG MEANS

- ⦿ Only HARDCORE UPSC-Prelims oriented preparation.
- ⦿ PhD intellectualism will neither be taught, nor I'll entertain such questions from students.
- ⦿ If I do not teach a topic, it means it is either
- ⦿ Topic Not important for exam – because 1) technical/BizGK 2) ball by ball commentary 3) PHD 4) Outdated for 2023 5) out of fashion in latest exam trend
- ⦿ Topic Maybe little bit important, but poor cost benefit in terms of amount of time invested to learn it versus the probability of getting asked in real Prelims.
- ⦿ Topic Maybe important for Mains but not for prelims
- ⦿ Topic is still in the nascent / developing stage, and I'm waiting for the next budget and economic survey or govt / parliament / courts to give the final verdict about it.

Economy quiz- poor score

Watch this Video for reasons behind poor score in quiz:

<https://www.loom.com/share/c86d3597b8e144d5a5163910dbdcf2a4>

- It takes some time to get used to the way MCQs are formed in UPSC. It basically involves changing of certain keywords and going to elimination method. Once you get a hang of it becomes very fast to tick or skip the answers.

The infographic is titled "how is economy knowledge tested in MCQs of UPSC". It lists four reasons, each with a large number (1, 2, 3, 4) and a blue speech bubble labeled "FACTS".

- 1 give wrong ownership/structure e.g. BBB ka boss is not RBI Governor.
- 2 Give wrong feature of the scheme / product / law. e.g. no tax on IIB.
- 3 Give wrong "size / number". e.g. NIIF Rs.4lcr.
- 4 Give wrong causal relationship e.g. inflation vs repo

A lightbulb icon is shown next to reason 4. A cartoon character holding a STOP sign is at the bottom left, pointing towards the reasons. A bracket at the bottom right groups reasons 3 and 4.

• not necessary that each of above statement is wrong.
• but if you have the fact/concepts memorized, you can arrive at right answer with less errors
• ..by becoming more alert while reading above sentences.

- Those getting poorer scores are because
 - a) Not revising properly → Then solution is obvious =you have to revise more
 - b) Overthinking / Birbal ki Khichdi/engaging in hairsplittery/lawyer-LLB type mentality/ thinking outside the photo frame.
 - c) Not reading the words carefully

- d) Silly mistakes like Incorrect statement is asked but they are taking the correct statement
- e) Mind is stuck elsewhere in WhatsApp Telegram Netflix , fight with siblings/parents, love affairs & breakups. so person is reading the handout / MCQ but he/she's not absorbing it properly.
- I am sure you will do well. Just focus on the lecture, revise the handouts and give the weekly Tests in regular fashion and rectify mistakes.
- When the first four pillars are over you will automatically see the big picture how everything fits together in the whole syllabus.
