Usual sequence is:

- Whatever Qs received till **Monday 6PM**
- Replied → PDF file uploaded on Wednesday Night.
- **I don't take up Qs in live class because**
  - 1 student's querry (e.g. should I take **PubAd or PolSci Optional**) may not have relevance to other 699 students!
  - 1 student having **PHD doubt in Bitcoin**, may not be relevant to other 699 students
  - **"Teaching hrs" only for teaching.**

किसी एक विद्यार्थी को यह प्रश्न हो सकता है कि उसने पॉलीटिकल साइंस ऑप्शनल सब्जेक्ट रखना चाहिए कि नहीं? जरूरी नहीं है कि वही प्रश्न तो बाकी 699 विद्यार्थियों को हो! इसलिए एक एक विद्यार्थी के प्रश्न में चालू क्लास में नहीं लेता

### Why in the News?

The commission for the sub-categorisation of the Other Backward Classes (OBC) is now in the final stages of finishing its task of coming up with a formula to further classify the nearly 3,000 caste groups.

- Creating sub-categories within OBCs would ensure “**equitable distribution**” of representation among all OBC communities.
- To examine this the **Rohini Commission** was constituted on **October 2, 2017**.

## Prelims-Raftaar course means means

- ◆ Only HARDCORE UPSC-Prelims oriented preparation.
- ◆ PhD intellectualism will neither be taught,
- ◆ nor I'll entertain such questions from students.

## Prelims-Raftaar course means means

- ❖ **If I do not teach a topic, it means it is either**
- ❖ **Topic Not important for exam – because 1) technical/BizGK 2) ball by ball commentary 3) PHD 4) Outdated for 2023 5) out of fashion in latest exam trend**
- ❖ **Topic Maybe little bit important, but poor cost benefit in terms of amount of time invested to learn it versus the probability of getting asked in real Prelims.**
- ❖ **Topic Maybe important for Mains but not for prelims**
- ❖ **Topic is still in the nascent / developing stage, and I'm waiting for the next budget and economic survey or govt / parliament / courts to give the final verdict about it.**

# Mrunal's Economy for UPSC Prelims-2023 (PCB9: Raftaar edition)

## what will be covered?

### What will be covered?

#### Theory

- Repo,CRR, Direct Indirect Tax, GDP, HDI etc.
- Bank Nationalization, LPG Reforms...

#### Contemporary issues of last 15 years

- e.g. Bitcoin (2009), IBC Code (2016), GST (2017)

#### FREE NEXT YEAR (Win24= Feb-2024)

### What will NOT be covered In this RAFTAAR course (PCB9)?

#### Mains-2023

- SEPARATE Quality Enrichment Program (QEP) from 2023June
- <although Unacademy is like NETFLIX so u don't have to pay extra- it's part of your paid subscription, if your subscription not EXPIRED>

#### Microeconomics

- Only 2 MCQs in Last 10 years.
- Not regularly asked. So 'de-linking'
- Separate Plus-course in 2022-May.
- <although Unacademy is like NETFLIX so u don't have to pay extra- it's part of your paid subscription, if your subscription not EXPIRED>

If we do economy after Prelims, then there will not be enough time for it?

Is India suffering from jobless growth?

# Why Handout?

Powerpoints = easy for understanding but tough for revision.

- My 2 hrs class = ~100 slides. Revision is nightmare- even in digital copies too many individual files open-close
- Swiping each slide will be tiresome..
- So I've created separate PDF handout for revision and PRINTING.

## 10.2 🔍 BARTER SYSTEM & ITS DISADVANTAGES: (बस्तु विनिमय प्रणाली)

Barter system was introduced by Mesopotamian tribes. Barter system has following disadvantages:

- 🔍 Double co-incidence of Wants (अवश्यकताओं का सीधा संगम).
- 🔍 Search Cost & Transaction cost is high. (एकी गुण पर लौज़ रुद्देह व लैवेट की जल्दत बहुत ज़रूरी है)
- 🔍 Storage of perishable commodities is difficult, results in loss of value. (याचकन वस्तुओं का मूल्यांकन)
- 🔍 Doesn't encourage specialization and division of labour (एक विद्यालय की प्रशिक्षण सही करते)
- 🔍 Fungibility problems:
  - Fungible item= Division & Mutual substitution possible e.g. 1kg gold bar = 100gm x 10 smaller bars, Currency Notes.
  - Non-fungible items example: Diamonds, Shares-Bonds of different companies.

## 10.3 🔍 MONEY: FUNCTIONS OF (पैसे के कार्य)

Primary [प्राथमिक] Functions	Secondary (S-T-D) [मध्यम] 3functions	Contingent [कारणिक] 3

  - ⇒ Indo Greek kings & Kushana kings issued gold coins, but Gupta Gold coins most spectacular- king is playing Veena, shooting animals, standing with wife, taking selfies!
  - ⇒ Delhi Sultanate Kings: Silver Tanka. Sher Shah Suri Rupiyah silver coin. Akbar: Mu
  - ⇒ Metal has INTRINSIC VALUE i.e. Metallic money = Use it as "money", or you can use that metal for making jewellery / weapons because metal itself has its value / usages मूल्य और लौज़ भी का सार्वतंत्र है, क्योंकि वस्तु का अपार्थी अंतर्गत मूल्य / उपयोगिता है।
  - ⇒ On the other hand, paper-currency note= You can't use currency-note's paper as a currency notes have no intrinsic value. उसके कानून का अपरिवर्ती अंतर्गत नहीं है, क्योंकि

Challenge? ⇒ Debasing: 🔍 decreasing the amount of metal in coins. Usually happens when king's rule gets weak/poor e.g. Aurangzeb, Roman Kings. जिन्हें ने यात् की मात्रा को कम किया था यात् यात् लोगों का उस पात्र के सामने से दिखाने का हीने लगात् है।	⇒ 1330s: Tughlaq's Token coins were debased. #EPICFAIL (Why Preparations for war were not made) ⇒ Modern Indian coins are Cupronickel metal.
